 Hearing Impaired

Item / Service	Age Year	Frequency/ Replacement	Purpose	Cost	Comment	Recommended By
<i>Architectural Renovations</i>	Beginning 6 2006	2 X Only (1 X by age 6; 1 X at age 21 if home care option is chosen)	Accessibility	Per Unit		Paul M. Deutsch, Ph.D., CRC, CCM, CLCP based on a review of available medical information and client interview ₉₆
	Ending 21 2021			Per Year		

Architectural renovations to be accomplished two times only. To include: ramping, lighting, floor covering, hallways, doorways, bathroom modifications, and other safety issues. One time now and one time at age 21 if Home Program is chosen. It is anticipated \$25,000 - \$30,000 would be required to renovate an existing structure. An additional \$15,000 - \$20,000 would be required to add to the cost of building a new, barrier free design.
